

# Security Engineer – Development/IT Operations

## SpearTip - Mission Statement

Blend cutting-edge technologies, unique skill sets and proven military cyber counterintelligence strategies, SpearTip partners with our Partners to protect shareholder value, shield corporate reputations and enhance long-term profits.

## Core Values

### Tenacious

- Tireless in our pursuit of answers; never give up until we find a solution
- Resolute in our desire to exceed client expectations
- Insistent on holding ourselves to a higher standard

### Consistent

- Develop, follow, and improve internal processes to achieve our corporate vision
- Listen, ask questions, get the facts, make better decisions
- Committed to be the best
- Focus, focus, focus!

### Decisive

- Get it done, don't delay it
- Overcome roadblocks, push through issues
- Act with autonomy; make intentional decisions

### Continuous Learning

- Grow our people to grow the business
- Enrich our minds to improve our company culture and personal life
- Help others to excel; serve as a knowledge base for each other, our clients, and our community

### Accountable

- Uncompromising integrity, always transparent, honest, and direct
- Treat others with dignity, care, empathy, and consideration
- Rely on others and be reliable
- Demand excellence

### Collaborative

- Partner with our clients to produce superior results
- Be a team player; seek input and advice from co-workers
- Make it a practice to listen first and then to be heard

## Position Description

This position will be responsible for protecting company assets including information systems, networks, devices, and data from threats, such as security breaches, advanced malware and other attacks by cyber-criminals. A key focus on this position is on the development and maintenance of custom security tools and integration between security appliances and software.
