

Senior DevOps Engineer

- St. Louis, MO, USA
- Full-time

Company Description

Blending cutting-edge technologies, unique skill sets and proven cyber counterintelligence strategies, SpearTip partners with our clients to protect shareholder value, shield corporate reputations and enhance long-term profits. We are driven to protect our clients from the ever-changing threat actors and become the gold standard in detecting zero-day vulnerabilities.

We are driven by our core values: tenacious, consistent, decisive, continuous learning, accountable and collaborative. These values define our culture, and we strive to employ technical experts who have the right character, attitude, and motivation necessary to deliver exceptional service to our clients. We are looking for new talent in the St Louis area to be a part of our growing team!

Job Description

The Senior DevOps Engineer role at SpearTip is responsible for the design, implementation, and management of cloud infrastructure that supports our software products. To be successful in this role an individual will need to have strong experience in cloud services, proficiency with scripting languages, and a willingness to tackle difficult problems with urgency. Under minimal supervision, this individual will need to effectively deliver on assignments, contribute to ensuring stable operation of our cloud infrastructure, and assist or coach team members where appropriate.

Duties/Responsibilities

- Design, build, and support cloud infrastructure and development tools
- Create automation to improve development operations
- Produce minor fixes to reduce occurrence of issues
- Lead in troubleshooting during support incidents related to the ShadowSpear platform
- Work with Product Management to ensure new features integrate into the platform appropriately
- Work with Software Engineering to ensure successful delivery of product enhancements
- Establish environment alarms and be available via on-call to respond

Qualifications

Desired Skills/Abilities

We consider a candidate's character, experience, potential, and desire to learn. For a strong candidate, we offer training and company-paid certifications to fill knowledge gaps.

- Strong experience using AWS cloud services
 - CloudFormation, S3, EC2, CloudWatch, IAM
- Strong experience in scripting languages
 - Python, Powershell
- Experience with search and analytics tools
 - Elasticsearch, OpenSearch, Kibana
- Experience with development tools
 - GitLab, GitHub, IDEs
- Experience with operating systems and related components
 - Linux, Windows
- Able to communicate with technical and non-technical colleagues
- Practices excellent time management
- Ability to prioritize effectively
- Strong written and oral communication skills

Education and Experience

- 7+ years of relevant experience

Additional information

At SpearTip, we strive to protect our clients 24/7, 365 days a year from the ever-evolving changes in cybersecurity. We take pride in our results and what we achieve. We recognize that life isn't all about work; we promote a culture that supports your personal goals and enriches your professional goals.

We provide excellent benefits to our team members. You could be eligible for:

- 100% employer paid health, dental and vision coverage plans for you and your family members
- 401(K) Plan with 100% employer match up to the first 5%
- Paid Time Off program and paid holidays
- Opportunities to grow and promote through employee development and employer-paid training

We want people who want to grow with us! Are you ready to stop threat actors from victimizing companies? Apply and find out!
